

RIEtech Global Announces Record Revenue Growth, Adds Lines

New Ownership Team Thrives on Business Basics and Innovation

Albuquerque, NM – January 22, 2011 RIEtech Global announced today that it exceeded previous annual sales by 104% from December 2009 to December 2010. Growth came from existing customers as well as new customers across the globe.

“It’s amazing to have this kind of growth with a new team in the midst of the toughest economy in decades”, said Rich Engstrom, President & CEO. “That performance is especially impressive with all the changes we’ve been making: ISO 9000 certification, alliances with companies like Chess Dynamics, LTD and 2 acquisitions. The company has never been in a better place to take customer satisfaction to new levels and grow into new segments.”

In 2010 the company focused on: customer satisfaction, systems, growth:

- Finalizing the details of changeover from Sagebrush Technology, Inc.
- Acquiring ISO 9001: 2008 Certification with zero Non-conformances
- Hiring new C-level executive team
- Integration of Kendal Precision Machining acquisition
- Integration of slide12 Consulting acquisition
- Teaming Alliance with Chess Dynamics, LTD
- Orders doubling from a Top 3 Defense Contractor on UAV systems
- Collaborative project with Defense contractor commercializing pirate avoidance system
- New project for the world leader in mine safety application
- Top 3 Oncology diagnostic system doubles order size
- Completes distribution agreement with Radio-Marconi, begins sales & marketing

“What I’m so proud of is how our customers have responded to our efforts. Despite all the internal changes we’ve made and new business wins our rankings of measured customer satisfaction have never been higher. That’s truly a tribute to the dedication and plain hard work of our staff”, said Engstrom.

About RIEtech Global

Headquartered in Albuquerque NM, RIEtech Global, LLC, is a diversified engineering, manufacturing and distribution company. RIEtech Global is focused on bringing hi-technology to existing markets where current solutions don’t match rapidly changing customer requirements. RIEtech Global’s motion control gimbal technology division brings new levels of precision to advanced defense, aeronautical and security applications.
